1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9 and 17-25, drawn to image detecting and suppressing ringing artifact, classified in class 382, subclass 275.
 - II. Claims 10-16 and 26-32, drawn to image resizing, classified in class 382, subclass 298.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as computer graphics and/or television. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yon Couso whose telephone number is (703) 305-4779. The examiner can normally be reached on Monday through Friday from 8:30 to 5:00.
